TERMS & CONDITIONS

Welcome to **Photogloss** Clock Supplies. We strive to give you the best of service on quality clock parts and accessories. In keeping with these goals, here are our terms.

WARRANTIES:

We supply quality Quartz Clock movements made in the USA. Movements come with a **6 year** guarantee on workmanship and material. Electronic functions are guaranteed for **2 years**. Any tampering or misuse will, of course, void such warranty. We also carry other economy brand motors subject to availability. These movements are covered by a **12 month** a guarantee.

QUANTITY PRICING:

You may combine assorted motor shaft lengths for best pricing.

PAYMENT:

Payment of orders must be received by us before orders will be dispatched Payment by EFT, credit card or cash. Business or personal cheques may be used after approval. We don't run accounts and payment is due on invoice, no statements will be issued.

All prices shown are GST inclusive.

Prices are current at the time of printing, but prices may change without notice subject to exchange rate fluctuations.

Cost of freight and packaging will be added to all orders.

RETURNS:

Please call for return authorization. Please ensure that all returns are well packed as received originally from us. Customers are required to pay freight on all returns.

SERVICE:

We ship most orders within 48 hours. Prices subject to change without notice. Our prices are competitive with any in the country. If you ever have a question, just call or Email. Pick up by APPOINTMENT ONLY

Regards Mark & Shelley Richards

MINI QUARTZ MOVEMENTS

HIGH QUALITY Made in the USA

Quartz Accuracy

Stabilized quartz crystal assures high accuracy to within ± 15 seconds per month

Reliability

A minimum number of parts (17 in entire movement) reduces wear within the movement and assures trouble-free operation. The movement is completely enclosed in its case, so dust and dirt cannot get into the movement.

Compact Size

The movement is approximately 2-1/8" x 2-1/8" x 1/2".

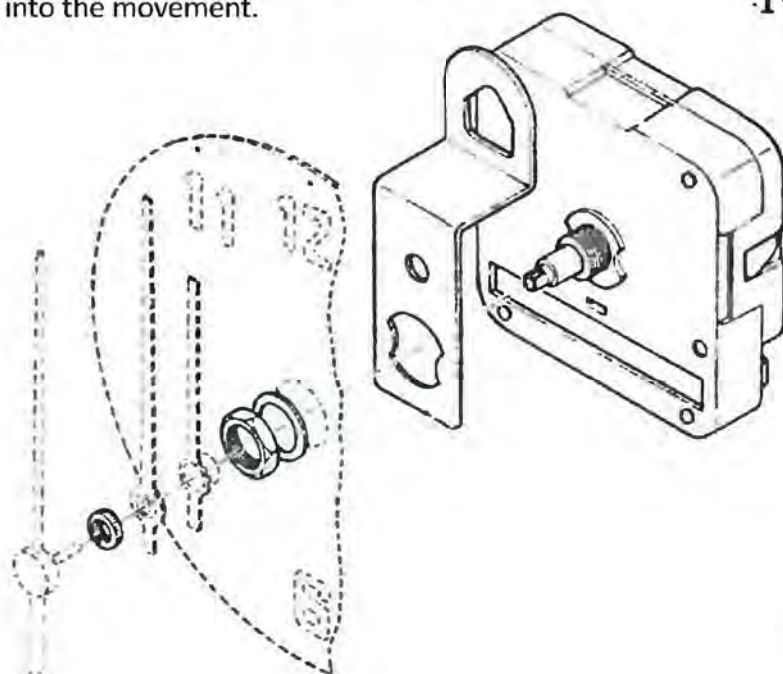

Battery Life

The movement runs approximately two years on a fresh "AA" battery, not included.

Step Second Motion

The second hand, if used, moves in exact one second steps.

1 year guarantee

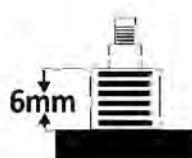

1-10.....	\$10.75
11-50.....	\$10.00
51-100.....	\$9.50
101+.....	\$9.00

Pricing includes FREE hour, minute second hands

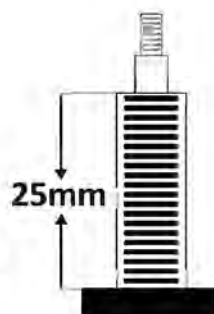

No extra charge for hanger.

Specify either sawtooth or regular hanger.

TAKANE HIGH TORQUE MOVEMENT

Made in the USA

- The most powerful quartz high torque movement available today.
- Shaft Length 10mm & 19mm
- Dimension W55mm x H55mm x D13mm
- 2 year warranty
- Capable of pushing larger hands. This high torque powered motor has been designed for those who want to make BIG CLOCKS. Takane high torque movements become the industry standard. The reasons are simple - this movement is the most powerful. This extraordinary motor will run in excess of two years on one quality AA brand battery.

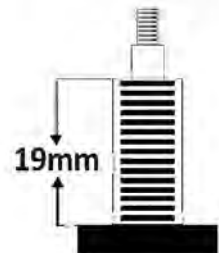

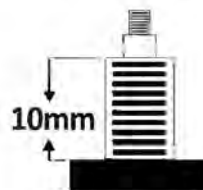

\$16.50

Large hands not included see below

Code: **QHTL**

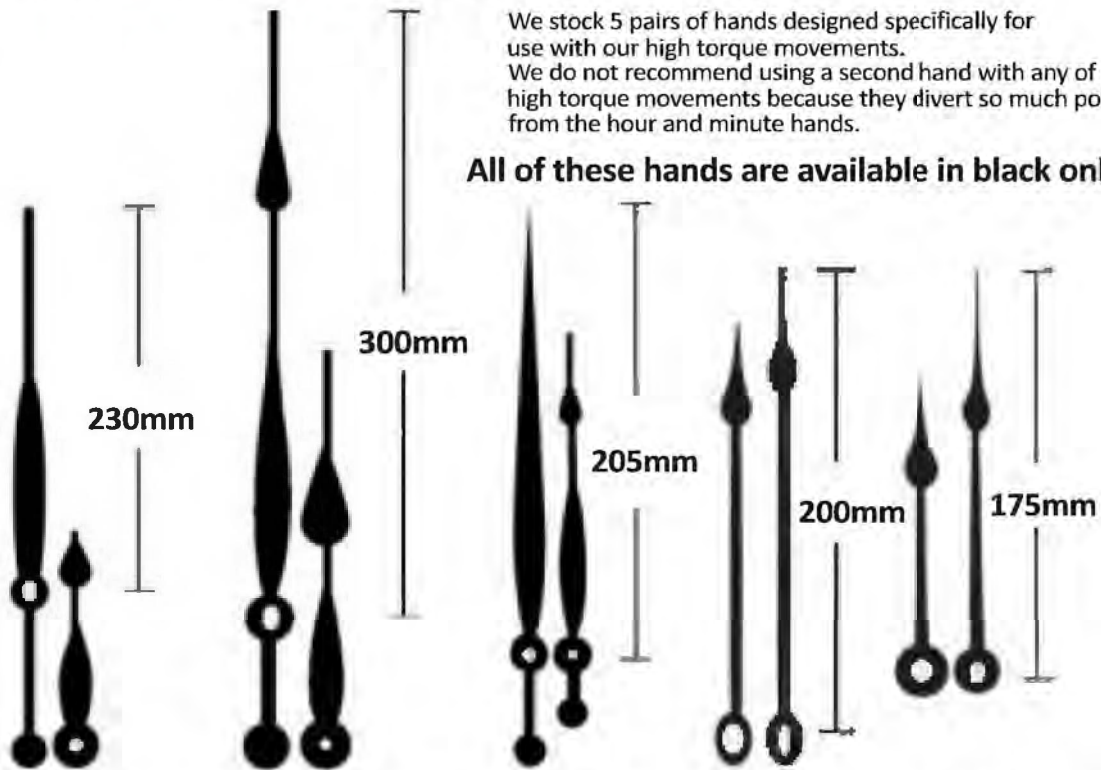

Code: **QHTS**

HIGH TORQUE MOVEMENT HANDS

We stock 5 pairs of hands designed specifically for use with our high torque movements. We do not recommend using a second hand with any of our high torque movements because they divert so much power away from the hour and minute hands.

All of these hands are available in black only.

I'm Retired Dial

These novelty dials will give you lots of attention.

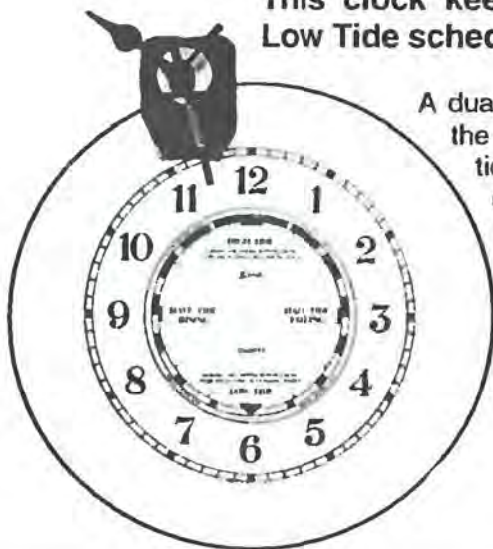

They're 7 7/8" in diameter and made of aluminium.

IRDIAL - \$8.50

WHILE STOCKS LAST

TIDE and TIME CLOCK

This clock keeps track of the High and Low Tide schedule. . . and the time of day.

A dual function quartz movement keeps the time of day and also the expected tide. Tide is indicated against a coloured inner ring. Hands included. Dial is either 6" or 8" in diameter.

Movement dimensions: 2 7/8"H x 2 1/4"W x 13/16"D. Runs on "AA" battery.

Code: **LYRE4:** **\$14.00**

QUALITY FORSTNER BITS

Forstner Bits are designed to drill flat bottom or through holes cleanly in end grain, thin stock, veneers and regular stock. These bits will not move off centre through unusual grain or angle. Great for mounting mini-quartz movements, cup hinges, and door locks.

Code: **FORBIT:** **\$40.00**

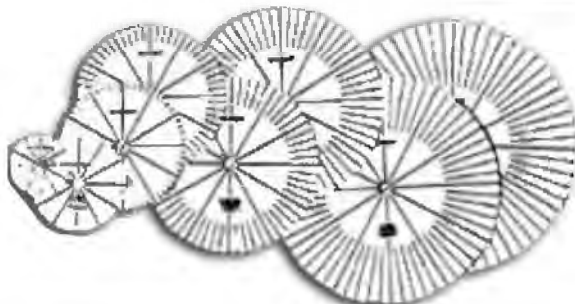

CLOCK MAKERS BIT

Our production quality Forstner Bit is made of heat-treated, forged steel. The 3 1/8" bit is 1/8" larger than most models. The extra 1/8" assures that most clock movements will not bind against the edge if the centre hole is drilled slightly off centre.

This tool is a "must" for anyone who considers clockmaking more than a hobby.

- 3 1/8" Diameter
- Twin Cutting Edges
- 1/2" Shank
